Aim of the game

Work together to answer questions and discuss various topics. For every knowledge or discussion card you answer correctly, move your playing piece forward on the corresponding coloured section of the game board. The aim of the game is to learn more about the values of the EU.

Preparation

- Form groups of **4-5 people**.
- Each group receives:
  - 1 game board
  - 6 playing pieces (one for each EC objective, colour-coded)
  - 1 pile of knowledge and discussion cards
  - 1 hourglass or stopwatch
- Place the playing pieces on their respective **starting positions**.

How to play

1. One person draws the top card from the pile.
2. There are two different types of card:

Knowledge card

- One person from the group reads the question aloud and the group discusses the answer together.
- The correct answer is written in small print at the bottom of the card.
- Once the group has answered, the answer is read out aloud.
- **If the answer is correct, the corresponding playing piece moves forward one stage**.
- Some knowledge questions are deliberately light-hearted and serve to liven things up.

Discussion card

- One person from the group reads the question aloud.
- The group then discusses it for 2 minutes.
- The time is measured using an hourglass or stopwatch.
- Once the group has discussed, you can read the input at the bottom of the card.
- **The corresponding playing piece moves forward one stage**.
- Afterwards, the next card is drawn.

End of the game

The game ends after **30 minutes** or as soon as all EU objectives have reached the final stage.

Materials

- 1 game board
- 6 playing pieces
- 29 knowledge cards
- 13 discussion cards
- 1 hourglass or stopwatch
